

■ Navigation 3 Migration Cheat Sheet

□ Navigation 3 Migration Flow

Quick Reference

- NavBackStack → rememberNavBackStack()
- NavDisplay + entryProvider → render UI
- NavKey (@Serializable) → navigation keys
- ViewModels (hiltViewModel) scoped to NavKey
- Scene Strategies (ListDetailSceneStrategy) for adaptive UI
- Composables: accept ViewModel + lambdas

■■ Gradle Dependencies:

- androidx.navigation3:runtime, ui
- androidx.material3.adaptive:navigation3
- androidx.lifecycle:viewmodel-navigation3
- hilt.android + hilt.compiler
- kotlin.serialization.json
